# Carers assessment request form

Putting people first

## What is a carer?

A carer is someone who looks after a spouse or partner, parent, brother or sister, adult son or daughter, other relative or friend who is ill or disabled and who would not be able to live in the community without this help. Carers can be from any section of the community and from any culture.

A carer assessment can find out what help carers might need. To find out if you are eligible for help from Lancashire County Council, fill in this form and return it to your local social care services office and we will get in touch.
